

## Proposal Name

### **Classification (subsystem)**

Identify accelerator subsystem.

### **Personnel and Institution(s) requesting funding**

Name personnel and Institution 1.

Add more lines for additional institutions, if needed.

### **Collaborators**

Name collaborating personnel and institution

Collaborating personnel will work on the project but are not requesting funding here.

### **Project Leader**

Name of project leader

email

phone

### **Project Overview**

Give a general description of the project.

### **Broader Impact**

The NSF proposal guidelines state that you should address one or more of the following: how the project will integrate research and education by advancing discovery and understanding while at the same time promoting teaching, training, and learning; ways in which the proposed activity will broaden the participation of underrepresented groups (e.g., gender, ethnicity, disability, geographic, etc.); how the project will enhance the infrastructure for research and/or education, such as facilities, instrumentation, networks, and partnerships; how the results of the project will be disseminated broadly to enhance scientific and technological understanding; and potential benefits of the proposed activity to society at large.

### **Results of Prior Research**

Describe the progress to date on the proposed project, even if it has not received prior funding.

In addition, describe the results of the grant that you received in the last 5 years that was most closely related to your LC research. This section should include (a) the award number, amount and period covered; (b) the title of the project; (c) a summary of the results of the covered research, including any contributions to the development of human resources in science and engineering; (d) publications resulting from the award; (e) a brief description of available data, samples, physical collections and other related research products not described elsewhere; and (f) if the proposal is for renewed support, a description of the relation of the completed work to the proposed work.

### **Facilities, Equipment and Other Resources**

Describe the facilities available to carry out the project. Include special lab facilities, electronics or machine shops, computing facilities, etc.

**FY2005 Project Activities and Deliverables**

Give a specific description of activities, milestones and deliverable items in the first year.

**FY2006 Project Activities and Deliverables**

Give a specific description of activities, milestones and deliverable items in the second year.

**FY2007 Project Activities and Deliverables**

Give a specific description of activities, milestones and deliverable items in the third year.

**Budget justification: Institution 1**

Give an explanation and justification of the budget associated with the activities described above for institution 1.

The actual budget numbers for institution 1 (the lead institution) are to be given in the next section. Note that this should include the funding for any subcontracting institution (institution 2) as a line item, and the subcontract charges are to be included in the indirect costs.

The format outlined below follows closely what is required for an NSF or DOE proposal. "Other professionals" refers to technical staff. If there is an item in your proposal which does not fall in one of the categories shown in the table below, add a line to the table and provide a description in the budget justification.

**Three-year budget, in then-year K\$****Institution: Institution 1**
